

# MAT-HAROO (मत-हारो) MASTERCLASS at Bengaluru

## Leg 1. Feb 24th & Feb 25th, 2025

Aims at providing innovative Architectural Design training outside the realm of formal institutions, by bringing together eminent professionals and committed students. Students work with mentors, in varying geographical contexts, and become active participants in their methodology. The diverse mix of participants will experience in rapid succession, series of short immersive design exercise. Akin to a quick pit stop in a fast moving race, what emerges is a rigorous two days Architectural Design studio, kept well oiled with a system of inbuilt checks through constant peer reviews. It reaffirms the view that academics today should not be limited by constraints of time, logistics of place and demographic divides.
